Undertakers have constructed laid down or placed their electric lines or other works or worked their undertaking in contravention of this sub-section and as to whether the working of such wire or line or the current therein is or is not injuriously affected thereby such question shall be determined by arbitration and the arbitrator (unless he is of opinion that such wire or line not having been so in existence at such time as aforesaid has been placed in unreasonable proximity to the electric lines or works of the Undertakers) may direct the Undertakers to make any alterations in or additions to their system so as to comply with the provisions of this section and the Undertakers shall make such alterations or additions accordingly.

(2.) Seven days before commencing to lay down or place any electric line or to use any electric line in any manner whereby the work of telegraphic or telephone or electric signalling communication through any wire or line lawfully laid down or placed in any position may be injuriously affected the Undertakers shall unless otherwise agreed between the parties interested give to the owner of such wire or line notice in writing specifying the course nature and gauge of such electric line and the manner in which such electric line is intended to be used and the amount and nature of the currents intended to be transmitted thereby and the extent to and manner in which (if at all) earth returns are proposed to be used. And any owner entitled to receive such notice may from time to time serve a requisition on the Undertakers requiring them to adopt such precautions as may be therein specified in regard to the laying placing or user of such electric line for the purpose of preventing such injurious affection and the Undertakers shall conform with such reasonable requirements as may be made by such owner for the purpose of preventing the communication through such wire or line from being injuriously affected as aforesaid.

If any difference arises between any such owner and the Undertakers with respect to the reasonableness of any requirements so made such difference shall be determined by arbitration.

Provided that nothing in this sub-section shall apply to repairs or renewals of any electric line so long as the course nature and gauge of such electric line and the amount and nature of the current transmitted thereby are not altered.

(3.) If in any case the Undertakers make default in complying with the requirements of this section they shall make full compensation to every such owner as aforesaid for any loss or damage which he may incur by reason thereof and in addition thereto they shall be liable to a penalty not exceeding five pounds for every such default and to a daily penalty not exceeding forty shillings. Provided that the Undertakers shall not be subject to any such penalties as aforesaid if the court having cognizance of the case shall be of opinion that the case was one of emergency and that the Undertakers complied with the requirements of this section so far as was reasonable under the circumstances or that the default in question was due to the fact that the Undertakers were ignorant of the position of the wire or line affected thereby.

and that such ignorance was not owing to any negligence on the part of the Undertakers. A.D. 1890:

(4.) Nothing in this section contained shall be held to deprive any owner of any existing rights to proceed against the Undertakers by indictment action or otherwise in relation to any of the matters aforesaid.

17.—(1.) The undertakers shall within a period of two years after the commencement of this Order lay down suitable and sufficient distributing mains for the purposes of general supply throughout every street or part of a street specified in that behalf in the Second Schedule and shall thereafter maintain the same. In addition to the mains herein-before specified the Undertakers shall at any time after the expiration of eighteen months after the commencement of this Order lay down suitable and sufficient distributing mains for the purposes of general supply throughout every other street or part of a street within the area of supply upon being required to do so in manner by this Order provided.

All such mains as last above mentioned (unless already laid down) shall be laid down by the Undertakers within six months after any requisition in that behalf served upon them in accordance with the provisions of this Order has become binding upon them or such further time as may in any case be approved of by the Board of Trade.

(3.) When any such requisition is made in respect of any street not repairable by the local authority which is not mentioned in the Third Schedule the Undertakers shall (unless the authority or person by whom such street is repairable consent to the breaking up thereof) forthwith apply to the Board of Trade under section thirteen of the Electric Lighting Act 1882 for the written consent of the Board authorising and empowering the Undertakers to break up such street and the requisition shall not be binding upon them if the Board of Trade refuse their consent in that behalf.

18. If the Undertakers make default in laying down any distributing mains in accordance with the provisions of this Order within the periods prescribed in that behalf respectively the Board of Trade may after considering any representations of the Undertakers either revoke this Order as to the whole or any part of the area of supply or if the Undertakers so desire suffer the same to remain in force as to such area or part thereof subject to such conditions as they may think fit to impose and any conditions so imposed shall be binding on and observed by the Undertakers and shall be of the like force and effect in every respect as though they were contained in this Order. Provided that the Board of Trade shall not revoke this Order as to part of the area of supply where the Undertakers make a representation that they desire to be relieved of their liabilities as respects the rest of the area of supply and in such case the Board of Trade shall not under this section revoke this Order otherwise than as to the whole of the area of supply. If Undertakers

owners or  
occupiers.

20. Where any such requisition is made by any such owners or occupiers as aforesaid the Undertakers (if they think fit) may within fourteen days after the service of the requisition upon them serve a notice on all the persons by whom the requisition is signed stating that they decline to be bound by such requisition unless such persons or some of them will bind themselves to take or will guarantee that there shall be taken a supply of energy for three years of such amount in the aggregate (to be specified by the Undertakers in such notice) as will at the rates of charge for the time being charged by the Undertakers for a supply of energy from distributing mains to ordinary consumers within the area of supply produce annually such reasonable sum as shall be specified by the Undertakers in such notice. Provided that in such notice the Undertakers shall not without the authority of the Board of Trade specify any sum exceeding twenty per centum upon the expense of providing and laying down the required distributing mains and any other mains or additions to existing mains which may be necessary for the purpose of connecting such distributing mains with the nearest available source of supply.

Where such notice is served the requisition shall not be binding on the Undertakers unless within fourteen days after the service of such notice on all the persons signing the requisition has been effected or in the case of difference the delivery of the arbitrator's award, there be tendered to the Undertakers an agreement severally executed by such persons or some of them binding them to take or guaranteeing that there shall be taken for a period of three years at the least such specified amounts of energy respectively as will in the aggregate at the rates of charge above specified produce an annual sum amounting to the sum specified in the notice or determined by arbitration under this section nor unless sufficient security for the payment to the Undertakers of all moneys which may become due to them from such persons under such agreement is offered to the Undertakers (if required by them by such notice as aforesaid) within the period limited for the tender of the agreement as aforesaid.

If the Undertakers consider that the requisition is unreasonable or that under the circumstances of the case the provisions of this section ought to be varied they may within fourteen days after the service of the requisition upon them appeal to the Board of Trade who after such inquiry if any as they shall think fit may by order either determine that the requisition is

unreasonable and shall not be binding upon the Undertakers or may authorize the Undertakers by their notice to require a supply of energy to be taken for such longer period than three years and to specify such sum or percentage whether calculated as herein-before provided or otherwise as shall be fixed or

Provided always that the Undertakers may after they have given a supply of energy for any premises by notice in writing require the owner or occupier of such premises within seven days after the date of the service of such notice to give to them security for the payment of all moneys which may become due to them in respect of such supply in case such owner or occupier has not already given such security or in case any security given has become invalid or is insufficient and in case any such owner or occupier fail to comply with the terms of such notice the Undertakers may if they think fit discontinue to supply energy for such premises so long as such failure continues.

Provided also that if the owner or occupier of any such premises as aforesaid uses any form of lamp or burner or uses the energy supplied to him by the Undertakers for any purposes or deals with it in any manner so as to unduly or improperly interfere with the efficient supply of energy to any other body or person by the Undertakers the Undertakers may if they think fit discontinue to supply energy to such premises so long as such user continues.

Provided also that the Undertakers shall not be compelled to give a supply of energy to any premises unless they are reasonably satisfied that the electric lines fittings and apparatus therein are in good order and condition and not calculated to affect injuriously the use of energy by the Undertakers or by other persons.

If any difference arises under this section as to any improper use of energy or as to any alleged defect in any electric lines fittings or apparatus such difference shall be determined by arbitration.

Maximum  
power.

22. The maximum power with which any consumer shall be entitled to be supplied shall be of such amount as he may require to be supplied with not exceeding what may be reasonably anticipated as the maximum consumption on his premises. Provided that where any consumer has required the Undertakers to supply him with a maximum power of any specified amount he shall not be entitled to alter that maximum except upon one month's notice to the Undertakers and any expenses reasonably incurred by the Undertakers in respect of the service lines by which energy is supplied to the premises of such consumer or any fittings or apparatus of the Undertakers upon such premises consequent upon such alteration shall be paid by him to the Undertakers and may be recovered before a court of summary jurisdiction.
